

Introduction to Product A

Enterprise Sales Training — Module 1

Welcome to the Product A training module.

In this session you will learn:

- The core value proposition of Product A
 - Key features and how they benefit customers
 - Pricing structure and competitive positioning
 - How to handle common objections
-

Key Features

What makes Product A different

Product A is built on three pillars:

■ Speed

Sub-second response times — 40% faster than industry average.

■ Reliability

99.9% uptime SLA with 24/7 support and automatic failover.

■ Scalability

Grows from 10 to 1,000,000 users with zero re-architecture.
